Hope's Windows and The American Institute of Architects Continuing Education Systems  
AIA/CES Registered Provider Program:

# “The Renaissance of Steel Windows”

Designed to explore the features and benefits of *modern steel windows*, this program will broaden one's understanding of the raw material and fabrication process. The presentation covers modernizations and improvements that have developed within the steel industry. It will strengthen the participants' understanding of where and why the product is applicable.

The program is a PowerPoint® based format using physical samples and open discussions to further enhance the learning process. There is no cost to bring this program to your firm or chapter meeting.
